

HANNA GIVEN  
MORGAN'S PLACE

The Ohio Senator Is Made Chairman of the Inter-oceanic Canal Committee of Senate.

## MORGAN IS ANGRY

Flays the President Unmercifully in His Arguments in the Session of Yesterday.

Washington, Nov. 24.—When the announcement was made in the senate that Mr. Hanna would be chairman of the inter-oceanic canal committee, Senator Morgan of Alabama, whom the Ohio senator displaced, delivered his valedictory. He entered on a long discussion of the canal question, and bitterly denounced the president, repeatedly charging him with ignorance and violating the law, and severely criticizing the establishment of the Panama republic. He said in part:

"I think the president's appeal to party discipline to force his opinions on the country and his measure of aggression on foreign countries, in addition to his power as commander-in-chief of the army and navy, which he uses with a dreadful latitude of construction, is so strong a proof of heart failure in the present world moments that I am encouraged to hope there are still some barriers we may rely on to protect the peace and save the commerce of the country. I regret that party discipline is to be used as a domestic police force to protect the transit in Panama, and to guard the interests of the new canal company. That we will get a canal if one can be built in Panama, I have no doubt, for the president has said so. Yet this result is not nearly so certain or so safe as if he should obey the Spooner law. The president completed his campaign against the Spooner act by having Mr. Hay sign a treaty with 'somebody from Panama,' who had no authority except that conveyed in a cable from a junta."

Scores Roosevelt.

Proceeding, Mr. Morgan read the correspondence bearing on the revolution to show, as he said, "the president knew of the uprising in the isthmus before it began and stood ready with armed ships to protect those engaged in it."

He expressed the hope that Secretary Hay had been asleep when some of the messages of his subordinates had been flying over the wire.

"As for the president," he said, "he never sleeps on his post of duty or desire, although he sometimes closes his eyes to what is going on about him."

The senator, while claiming to have been in harmony with the policy of all of President Roosevelt's Republican predecessors in recent years, emphatically announced his opposition to the present administration's policy, and called on congress to require an enforcement of the law, which, according to his construction of the Spooner act, made it compulsory for the president to begin negotiations for the Nicaraguan route.

Brings Down Censure.

He contended that Colombia had a perfect right to suppress an uprising on the isthmus, and declared the United States had failed utterly to observe its treaty obligations. "Indeed," he said, "our course there has been such that it would bring down the censure of future generations on us." He predicted that the immediate result would be disastrous and cause the loss of both men and treasure. The consequences would be such that the president would have no time for dreams of diplomatic triumphs.

A careful canvass among the Democratic senators shows that the opponents of the Panama canal treaty cannot hold a sufficient vote to prevent the ratification of the treaty.

It has been found impossible to keep many Southern senators in line who do not care to appear before their constituents weighed down by the responsibility of defeating a canal which the South so much desires.

JAPAN WOULD BE

Warships from Tokio Are to Intercept Vessels of the Czar.

London, Nov. 24.—The Tokio correspondent of the Daily Mail, cabling under yesterday's date says: "It is reported that Baron De Rosen, Russian minister to Japan, received yesterday an urgent telegram of over 200 words from the foreign office of St. Petersburg and that immediately thereafter the minister's secretary was dispatched to the Japanese foreign minister. It is believed that a conference will be held today, when Japan's reply will be given."

The Russian minister at Seoul has addressed another note to the Korean government declaring that if Korea should ignore all warnings and persist in opening Yonampoh to foreign trade Russia will take active steps to deal with the situation. The Korean government has replied, strongly objecting to Russia's interference as a violation of Korea's sovereign rights. A communication to the same effect, according to the correspondent was sent to the Japanese minister at Seoul.

The questions arising from the affair between Japanese and Russians at Chemulpo have not yet been settled, adds the correspondent.

Dr. McCarthy Missed Horse and Buggy, Sunday, But Discovers Outfit in Monterey.

The horse and buggy belonging to Dr. Thomas H. McCarthy which he left tied near his office in front of the Badger Drug company, Sunday afternoon, was taken by unknown parties and about six o'clock was found by the doctor tied near the Monterey bridge. The loss was discovered shortly after one o'clock and as the outfit was discovered before night the trouble was not reported to the police. Dr. McCarthy believes that some one took the rig for a joke or free ride but with no intention of stealing. Nothing was taken from the buggy and the horse appeared in good condition when found in the suburb. No traces of the party who committed the prank have been found.

A GOOD GAME  
IS ARRANGED

Picked Team Will Play Stoughton at Athletic Park, Thursday Afternoon.

One of the best football games of the season will come off at three o'clock Saturday afternoon at Athletic park when the Stoughton high school eleven will line up against a picked team composed of the best men from the teams of '03 and '02. This will not be a high school game and the boys are planning it among themselves and will bear the expense. It is hoped that a good crowd will turn out, for the Stoughton men are playing in fine form and have had two university coaches to get them in fighting trim. A swift game is promised and the local men should have the support of a good crowd.

DECIDE CASE IN  
GOODWIN'S FAVOR

The Circuit Court Jury Settled a Knotty Point of Law Yesterday.

In the case of Lizzie Wilkins against Michael Goodman, tried in the circuit court of this county yesterday, the jury brought in a verdict for the defendant this morning.

Mr. Goodman owns and manages a hack line, in this city, and transports persons and baggage. On the 12th day of August, last, Miss Wilkins hired him to carry her trunk to the C. & St. P. railway passenger station in time so that she might take the train, leaving here at 10:35 o'clock in the morning, for Milwaukee.

It was claimed that she told the defendant's two sons that she would be present at the station when the trunk arrived and pay for its transportation. Mr. Goodman took it to the station himself, arriving there in the vicinity of 10 o'clock. He stayed about looking for Miss Wilkins until about 10:15 o'clock, when he went away, having other business.

Before leaving, he placed the trunk, as he testified, on the west side of and close up to the door of the baggage room. Miss Wilkins did not arrive at the station in time to take the train and when she came to look for her trunk, it was missing.

She sued Mr. Goodman for the value of the contents of the trunk. She claimed that the trunk contained her personal clothing to the amount of about \$200 and money to the amount of \$50. She also stated in her complaint that she had been damaged in the sum of \$50. She demanded judgment against the defendant for \$300 and her costs and disbursements.

Judge Dunaway submitted special questions to the jury which they answered. They found that Mr. Goodman delivered the trunk at the station as agreed and that he was not negligent in transporting it and leaving it on the platform as he testified. Charles E. Pierce and J. Fisher were attorneys for Lizzie

Wilkins. DIRECTORS OF DUNDEE BANK REFUSE TO TALK.

## RUMOR BLAMES THE CASHIER

Stories Are to the Effect That He Had Been Trading on Chicago Board of Trade.

(Special By Scripps-McLear.)

Dundee, Ill., Nov. 24.—Officers and directors of the First National bank of Dundee, notice of the suspension of which was posted Sunday night, declare they do not know how greatly the institution is involved, and they are awaiting the arrival of Bank Examiner D. A. Cook, who has been appointed receiver. Meantime rumors are flying about, and depositors are making insinuations about the conduct of the cashier, F. B. Wright.

Mr. Wright was summoned home last week from the Minnesota woods, where he had gone to hunt during his vacation, and when he arrived President Deles Duntun, whose niece Wright had married three years ago, asked him for his keys to the bank.

Soon afterward the directors met and decided to ask the comptroller of the currency to straighten out the tangle in the books, and a telegram was sent to Washington Saturday night.

Allege Speculation.

Mr. Wright was a bookkeeper in the employ of a condensed milk manufactory before he married into a wealthy family, and is said to have conceived the ambition to become the Dundee Croesus. Open declarations that he has recently been speculating on the Chicago board of trade will be neither affirmed nor denied by the bank directors.

Wright is a close friend of E. C. Hawley, one of the state grain inspectors. Last Saturday was the tenth anniversary of the closing of a private bank conducted by Mr. Hawley in Dundee. Depositors of Hawley's bank received about 25 cents on the dollar.

Reserve Is Short.

It came out that the First National had less than the amount of cash on hand that is required by law as early as last Tuesday. East Dundee is building a water works system and the bank had agreed to take up the city bonds. Upon advice that about \$2,500 in bonds would be ready for acceptance within a few days, Vice President A. F. Chapman made a trip to the bank on that day to consult with Assistant Cashier Wollaver and prepare to secure the money. He was stopped by a business man who wanted a loan of \$5,000 on proper security, and upon investigation Chapman found that there was not that much money in the vaults.

Cashier Under Bonds.

Cashier Wright would make no statement for publication, nor would any of the bank's officials say more than that they were waiting for the examiner to inspect the books before concluding what to do in the future. To secure any claims which may be made by stockholders Wright was placed in bonds of \$20,000. Of this amount \$10,000 has been signed by Dundee merchants and \$10,000 by a surety company. The chief stockholders are men in such good financial circumstances that they could take care of all indebtedness. All of them have lived in the community for many years.

The suspension of the Dundee Bank, following only a month after the failure of a Lockport institution, owing to the admitted stock speculations of its officers, has caused much comment in all this section of the state. FRANCE WANTS  
ARMIES CUT DOWN

A Resolution to This Effect Causes Considerable Talk in the French Chamber.

Paris, Nov. 24.—At the close of the general debate on the foreign policy of the government in the house of deputies this afternoon Deputy Hubbard brought in a motion requesting the government to join with foreign powers for the purpose of limiting the military burdens of Europe. M. Delcasse replied that it was not the business of France to make proposals. The French government, L. Delcasse said, had already set the example, as its naval and military budgets of other powers had been decreased year by year, while the budgets of other powers had been increased. If, said M. Delcasse, the example set by France were fruitless, mere words would be unheeded, and they would only compromise the dignity of the nation. It was not for France to take the initiative. After a heated discussion in which M. Jaures (socialist) took a prominent part a resolution approving the foreign policy of the government was carried by an enormous majority.

The Princess Alice Has Been Infatuated with Her Coachman for Some Time.

(Special By Scripps-McLear.)  
Berlin, Nov. 24.—Details of the elopement of Princess Alice of Schoenberg-Waldenburg, with her coachman became definitely known today. The coachman whose name is Emilio Materl, is an Italian, and the husband of one of the princess' household maids. Materl is a small, swarthy and ugly man of horsey and coarse manners. The princess has shown a preference for him for several months, frequently taking long drives with him. Recently she employed Materl for housework, which gave him an opportunity to enter the princess' apartments. The fact she was infatuated with him was an open secret for some time with the exception of the prince.

WAR RUMORS IN  
THE FAR EAST

London Advices Are That a Struggle Has Already Begun Over Manchuria.

## PREPARATIONS ON

Both Russia and Japan Have Been Quickly Bringing Matters to a Crisis.

(Special By Scripps-McLear.)

London, Nov. 24.—War between Russia and Japan is probably already on, according to reports received here from St. Petersburg and correspondents in the far East. While there is much uncertainty concerning the actual situation, it is admitted in diplomatic circles here that the reports have more rather than less significance from the absence of reliable official information concerning the doings in the Orient.

In strongest confirmation of the current warlike rumors comes a dispatch from Moscow to the effect that Japan is reported, with seeming reliability, to have dispatched warships to intercept the two Russian vessels now on their way to join the Czar's squadron at Port Arthur. If this latest rumor proves true, it is admitted that no further doubt can exist that hostilities between the two powers have actually opened.

Indications of War.

The same dispatch asserts that in Moscow the belief is growing that nothing can now avert a bloody conflict. Russia is described as showing signs of nervous tension such as have not been manifested hitherto during the most critical stages of the preceding negotiations with Japan. The ministry is known to have been hastening preparations for war for weeks past, but officials of the foreign office have admitted, even within the past few days, that the Czar is even yet far weaker than Japan in Eastern waters, and that it will be impossible for him to bring nearly as powerful a land force to the front along the Korean frontier as Japan can land there within a short time.

Despite these unfavorable conditions the Russian ministry speaks with much confidence of the ultimate outcome of the conflict, asserting that it will be a question of only a few months before the Japanese troops will be overwhelmed by sheer force of number and swept into the sea.

Conditions at Tokio.

Reports from Tokio are of quite as warlike a nature as those from St. Petersburg and Moscow. Baron de Rosen, the Russian minister, received on Sunday a long and urgent telegram from St. Petersburg, following which he sent in much haste for Baron Komura, Japanese minister of foreign affairs. It is expected that Baron de Rosen will reply to his dispatch after a conference between the two diplomats.

M. Pavloff, the Russian minister at Seoul, has sent another note to the Korean government regarding Yonampoh, declaring that if Corea persists in opening that port Russia will take action.

Corea Replies to Russia.

Corea replied that Russia's interference with the opening of Yonampoh was a violation of Corea's sovereign rights, to which she strongly objected. Corea concurrently noted the Japanese minister to the same effect.

That this misunderstanding many have had much to do with precipitating hostilities between Russia and Japan is considered here as highly probable. The Japanese, while conceding that they considered the continued occupation of Manchuria by Russia troops as a breach of faith and one which they keenly resented, have nevertheless declared themselves as not at all inclined to make war upon such grounds.

Mikado to Protect Corea.

Concerning Corea the Mikado's views have been quite otherwise. He has repeatedly expressed himself as prepared to fight to the last drop of blood before permitting its integrity to be infringed in the slightest degree. The continuance of its sovereignty is deemed essential to Japan's safety, and if, as considered here, the latest Russian threat is taken by the Japanese as constituting an infringement of these rights, there is no doubt that war would have followed immediately upon the czar's declaration.

Later Report.

London, Nov. 24.—A St. Petersburg dispatch says there is no foundation for the report that the Japanese fleet has gone to intercept the Russian squadron bound for Korea. The dispatch adds the likelihood of a conflict between Japan and Russia is now regarded as a thing of the past.

## BUOB BREWERY MAY HAVE TO PAY

DOES CONCERN DO RETAIL BUSINESS IN THE CITY?

### COUNCIL DISCUSSED MATTER

Aldermen Instruct the City Attorney to Ascertain Facts and Get License.

If the Buob Brewing company is retelling beer down at the south side plant and if the company is selling to private families in the city the concern will have to take out a license. This was the voice of the council last evening who, without a dissenting vote, placed the matter in the hands of the city attorney and instructed him to ascertain if Mr. Buob was liable to the license and if so, after giving him reasonable time in which to pay, to begin prosecution.

**A Retail Business**  
The matter was brought up by Alderman Matheson who stated that he understood that the south side distillers of the amber fluid were selling the product to private families and that he was informed that Mr. Buob sells beer at retail. This move may effect other Janesville brewers beside Buob.

**Matheson on Parks**  
Alderman Matheson made an informal report on the work done in the city parks during the past summer. He said that a number of soft maps had been removed, as they interfered in places with the growth of the elms. He said further, that Mr. Knott, who had had charge of the work and had removed the maps, stated that these trees had reached the limit of their usefulness anyway as all those which had been cut down showed that the hearts were dead and the trees would not have lived much longer.

**The Best Course**  
Alderman Lowell said that there had been some criticism concerning the removing of these trees; it was the sentiment of the council that the wisest course had been pursued. Alderman Matheson said that he contemplated asking, during the winter months, for an appropriation of \$100 for young trees to be set out next year and asked the members to bear this in mind so they could decide as to how they would vote on the proposition. In some places, more trees were needed badly and the additions that he planned would improve the appearance of certain sections of the parks.

**Walks Improved**  
Other work that had been accomplished under his direction was the fanning of the walks in the courthouse park. This had been accomplished satisfactorily and the tar walks were now in excellent condition for the winter. This improvement had been made necessary by the many holes and uneven places in the paths which would have been especially unpleasant and dangerous for pedestrians in the snowy and slippery weather which would soon be at hand.

**Fountain Fixed for Winter**  
The fountain had been recovered, cleaned and drained. Especial care had been taken in the drainage that there should be no water left in the pipes or basin to freeze and cause damage this winter. Mr. Knott, the man who had charge of the park work had finished, had been paid his last salary and was no longer working for the city.

### WHAT IS CATARRH?

Hyomel Cures This Common and Disagreeable Disease.

Hyomel cures catarrh by the simple method of breathing it into the air passages and lungs. It kills the germs of catarrhal poison, heals and soothes the irritated mucous membrane, enters the blood with the oxygen and kills the germs present there, effectually driving this disease from the system.

The complete Hyomel outfit costs but \$1.00 and comprises an inhaler, a bottle of Hyomel and a nebulizer. The inhaler will last a lifetime, and additional bottles of Hyomel can be obtained for 50c.

If you have any of the following symptoms, catarrhal germs are at work somewhere in the mucous membrane of the nose, throat, bronchial tubes or tissues of the lungs.

offensive breath  
dryness of the nose  
pain in back of the head  
pain in front of the head  
soreness to take cold  
burning pain in the throat  
hawking to clear the throat  
pain in the chest  
a cough  
itching in side  
loss of sleep  
variable appetite  
low spirits at times  
raising of freely mucous expectorating yellow matter  
difficulty in breathing  
frequent sneezing

Hyomel will destroy activity of all catarrhal germs in the respiratory organs and in a few weeks the cure will be complete.

In the afternoon that this meeting was the first since he had been in office for which there was no preparation of papers necessary. The usual minutes and reports were read by the clerk.

Alderman Sale handed in the report of the municipal judge for the month of October, which he had examined and found correct. He stated, however, that there was a certain number of marsh fees listed in the report of which there had been no accounting. He stated that, according to the charter, the marshal should file a monthly account. After some discussion, the matter of the marshal's report was put in the form of a motion which was passed so that in the future a report will be filed. The municipal judge's account was accepted.

**Matheson asked for a report from the city attorney as to the outside brewers' license situation.** Mr. Burpee said that the Gund Brewing company had already paid. That he had received a letter from the legal representative of the Schlitz Brewing company saying that he advised the company to settle for the license; and that Mr. Casey, agent for the Blatz Brewing company, in this city, had received similar word from the main office and that he had only delayed settlement in order to ascertain who to make the payment to. Mr. Burpee further said that he believed that there would be no more trouble in getting the money.

A request for the city engineer to determine a grade for Elizabeth street, from Washington street to Chatham, was passed. There was some discussion as to the location of Elizabeth street, but it was found to be the first thoroughfare running west above the hospital.

## CASE AGAINST THE CITY IS PAID

Other Business Transacted—Ordinances with the Clerk To Be Reported on at Next Meeting.

Alderman Sale asked for the payment of the note for \$1408.75, this being the judgment in settlement of the Ann Collins case against the city of Janesville. This was ordered paid but was afterwards reconsidered. The form was then made to read: "Upon proper delivery to the city attorney a proper release and discharge of said judgment and costs. The last clause was inserted so that there should be no mistake in the settlement of the case and no claim presented later to the city. There was considerable discussion regarding the several ordinances now before the council and Alderman Matheson finally moved that the clerk make a full report on all ordinances at the next meeting.

An order was presented by Alderman Sale for the street commissioner to build a plank walk across Maple Court on the east side of Washington, as this was a bad place and the improvement was an important one. The order was adopted.

Alderman Lowell moved that the mayor be appointed special police but a previous motion to adjourn was called for and the vote resulting was a tie. The mayor voted on the negative side and the meeting was continued for several minutes in a discussion of the ordinance question. An adjournment followed.

Dr. Roberts Returns from His Trip to the North—All Well When He Left Camp.

Dr. Roberts has returned from his northern hunting trip in Forest county and reports that the deer hunting and duck shooting is fine in the neighborhood of his camping grounds. The doctors brought back a trophy of skill as a mink and reports that when he left camp the party had six fine deer already and prospects of each man's getting the two allowed him by law before the season was over. The doctor was much surprised at the account of ex-Sheriff William Appleby's illness and says it must be a mistake as Mr. Appleby was as well as any one in the camp when he left. Aside from Doctor Roberts and Mr. Appleby the following made up the camp: Dr. St. John, Harry Carter, Lieutenant-Governor J. O. Davidson of Madison, Sanford Severhill of Janesville, Edward Parker and William Rouse of Beloit. Charles Schwartz was also there but was forced to return last week. The rest of the party will stay until next week.

## WITH A LINK OF INTERESTS TO RAILROAD AND PIN, MEN.

**North-Western Road.**  
The freight houses of both the North-Western and St. Paul roads will be closed on Thanksgiving day and the men in the machine and carpenter shops and the round houses are hoping that their work will be light that day so that the majority can get off in the morning. Freight traffic will be light but passenger traffic will be heavy. So it is necessary to keep the men on hand to be ready for emergencies.

Locomotive No. 53 of the DeKalb run was in the shops this morning to be fitted out with new tires. She broke down this morning and No. 50 was sent to DeKalb in her place. No. 195 was brought in from Madison to relieve No. 50.

The second section of passenger train No. 510 this morning consisted of three refrigerator cars loaded with fresh Columbia river salmon which are being hurried to New York City to tempt the epicures of Gotham on Thanksgiving day. Locomotive 537 took these cars to Chicago.

In attempting to throw the belt from the machine used in the shops for sawing the paving blocks, the stick which he was using in some manner slipped and Carpenter Geo. Road's right hand caught in a pulley yesterday afternoon. The thumb and index finger was badly jammed.

Foreman F. W. Ellis went to Clinton on the company's business this morning.

Fireman George Madden of the Watertown passenger train laid off this morning for a few days.

Engineer A. S. Wolcott, of the Fond du Lac & Belvidere time freight is laying off for a week. He is relieved by Engineer Simmons of Fond du Lac.

Fireman C. B. Smith has returned to his work on the Watertown passenger run.

Fireman E. L. Westcott went to Afton Monday on the company's business.

Engineer Roy Wilcox has returned from a trip to Chicago and resumed his work on the north Wisconsin division.

J. W. Clarke, engineer on the north Wisconsin division, is off duty. A baby boy arrived at his home on Park street last night.

Clerk H. T. Matthews expects to go on a hunting trip to Koshkonong tomorrow.

Another engine dispatcher will be added to the force of four at the round house tomorrow. Increased business makes this move necessary.

August Bush, who has charge of the stationary engine, and Boiler-maker Marzoo Bliss returned yesterday from a successful hunting trip near Koshkonong. The trip was small in game but large in experience.

It was erroneously stated in this column yesterday that Engineer Gridley had returned to work on the DeKalb run. The statement should have read: "Engineer Manning, etc." Engineer Gridley is visiting in Milwaukee.

Four stock trains passed through Janesville last night.

**St. Paul Road.**  
Engineer Gregory returned to his work on the R. & S. W. division this morning. Engineer Walter Speck has been relieving him.

John Kennedy, a wiper at the St. Paul round house, fell into one of the pits a few days ago and was seriously injured. He will not be able to resume work for some time. James Ross is relieving him.

Machinist Thomas Howe left yesterday for Galesburg to attend the funeral of a cousin. Fireman John Cornelius is relieving him.

Engineer John Murphy of the Mineral Point division is laying off.

The new line passenger engine on the train from Chicago lost her tire this morning at Libertyville. The train was delayed over an hour. Engine 209 brought it in. No. 200 took the train to Madison.

Locomotive 1326 of the Plattville branch is in the shops for a general overhauling. No. 1282 is taking her place.

Fireman Albert Boltz of the Mineral Point division is laying off. Fireman William Goke is relieving him.

## TURKEYS COME TO TOWN SLOWLY

THE MEAT MARKETS WILL HAVE ENOUGH TO GO ROUND.

### TENDER, AT TWENTY CENTS

Chicago Prices Are Way Up—Many Fowls Shipped to the Windy City.

A trip to the several Janesville meat markets assures one of the fact that there will be enough turkeys to go around this week although the price will be high. Some of the dealers have got in their first supply and some will hang up their first gobblers of the season today and tomorrow. "I think there will be enough turkeys to supply Janesville's demand for Thanksgiving," said a prominent meat dealer yesterday.

**Small Number**  
There is not so large a quantity of the birds as in some former years, but the general belief among those who handle the fowls now is that a sufficient supply will be on hand to satisfy all Janesvillites who wish to indulge in the luxurious edible. The manager of one market said that he has enough turkeys on hand to meet the demands of his customers and if the supply should run out he would be able to secure more. Farmers are still somewhat reluctant, according to some, in bringing their turkeys to the market but the buyers in this city are not very apprehensive of being unable to supply their patrons.

**Score Prices**  
Turkeys are selling from 18 to 20 cents per pound according to quality. Live birds sell at from 15 to 18 cents. Dealers say that there is little profit left to them, but they do not want to put the prices any higher, so that people of all classes may be enabled to have the appropriate meat on the table Thanksgiving day. They declare that the present prices are high enough. The deplorable condition of high prices they deeply regret, but are in no way responsible for it.

**More Geese**  
Dressed geese retail at 12½ cents per pound retail. There is a sufficient supply of these birds on the market and therefore a shortage need not be feared. Spring chickens are selling at fifteen cents per pound and older hens at twelve cents. Ducks are plentiful and retail at 15 cents.

**Chicago Prices**  
Chicago dealers are offering the highest prices that have been listed in years. One wholesaler is already offering 20 and 22 cents for the best dressed turkeys and several offer 17, 18 and 19 for the live birds. When it is considered that this is strictly wholesale the significance of the figures can be seen. If anything the Janesville prices are low for the fowls can be shipped at a profit now.

## TO WARD OFF THE GLANDERS

State Livestock Sanitary Board Will Make Radical Measures in the Case.

The Wisconsin live stock sanitary board today discussed several cases of infected herds of like stock in various parts of the state. It was decided to take every precaution against possible spread of the contagion. Dr. Roberts, state veterinarian, said that there were several cases of glanders in Douglas and other northern counties, but that he was doing everything to prevent the disease from spreading. He has killed several horses thus afflicted.

Commander-in-Chief John C. Black of the G. A. R. has issued general order No. 4, in which he names his appointees in the various states of his aide-de-camps for the coming year. Prominent among the appointees of Wisconsin is Col. E. O. Kimberley of Janesville. Colonel Nicholas Smith of Milwaukee has been appointed assistant to Allen C. Bakewell of New York in charge of the military instruction and patriotic education of the public schools. Col. Smith was for many years a

### A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair and prevents baldness.

resident of Janesville and was editor of the Gazette for a long time. His appointment and that of Col. Kimberley is very pleasing to the members of the Grand Army of the Republic in Janesville. The other appointments for Wisconsin are: Aide-de-camps, Charles A. Bentley, Henry Hase, Milwaukee; J. N. Ruby, Oshkosh; Edward Gillen, Racine; R. E. Osborn, La Crosse; A. H. Hollister, Madison; L. A. Brace, Eau Claire; G. W. Morton, Berlin; J. S. Hadley, West Superior.

## LABOR TALK FOR WORKMEN

Shoe factory workers at Rochester, N. Y., have been granted a voluntary reduction in working hours from ten to nine.

Work on the Indianapolis, Ind., labor temple is expected to begin January 1.

The Canadian Pacific will shortly inaugurate a system of retrenchment and lay off many men, the force being cut down in every department.

New Orleans (La.) longshoremen have made a three years' agreement for their work. This follows a prolonged and costly strike of 8,000 men.

Minnesota State Federation of Labor will raise \$100,000 to assist the striking flouring mill employees of Minneapolis.

Sheep butchers throughout the country have accepted the wage increase of twenty-five cents a day that was offered them by the packers.

The percentage of unemployed members of English trade unions during September was higher than the mean percentage for that month in the past ten years.

Steam coal shovel workers of Cincinnati, O., and Covington and Newport, Ky., have organized a union and will affiliate with the Longshoremen's International association.

There are nine longshoremen's workers' unions in Queensland, Australia, and they all belong to the Waterside Workers' Federation.

Tailors' unions throughout the country are engaged in a struggle with the Employers' association. The latter refuses to sign agreements on wages and free work shops.

A United States Labor league, to comprise every union in Alabama, is in the course of formation.

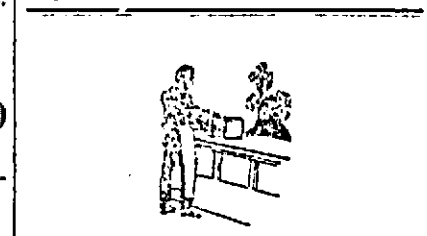

Forty-five hundred girls employed in telephone factories in Chicago, Ill., are to be organized at once into the Women's Auxiliary to the International Brotherhood of Electrical Workers. The girls' wages run from \$9 to \$16 a week.

Difference between the workers and employers in the shale mining industry of Scotland have resulted in a suspension of 3,500 men. The dispute originated from a demand of the miners of one shilling a day.

The threatened general strike in the packing centers of the country will probably be prevented, Michael Donnelly, president of the Amalgamated Meat Cutters' and Butcher Workmen's union, has received a communication from the Chicago packers, asking for a conference to bring about a settlement.

MOLASSES FOR HORSES

Recently scientific tests have been made as to what is the best feed for horses that are unthrifty or sick. Instead of feeding them oats or corn, Molasses Feed is given with the most gratifying results. A horse that weighed 900 pounds gained 40 pounds in two weeks on a molasses diet, and in a month he had added nearly 100 pounds to his weight. All signs of disease disappeared and his new coat of hair was glossy and beautiful. This experiment was but one of hundreds, all showing the wonderful curative and health giving properties of Molasses Feed. Farmers, livestockmen and others who own horses should give the Molasses Feed a test. It is cheap, and if as represented by scientists, it can re-make and rebuild run-down horses, it will prove invaluable to owners of horse flesh. This feed for sale at

# COUNTY NEWS

**MILTON.** Nov. 24.—The announcement that Hon. Emil Baensch, of Manitowish, has consented to the use of his name as a candidate for governor is received with great enthusiasm by many Milton republicans. As lieutenant governor, he was an eminent success and made a host of friends. He is in every way an ideal candidate and the conservative republicans of Wisconsin rally to his support as one man.

A breakdown at the gas plant Thursday deprived patrons of the company in both villages of light and they were obliged to dig up their kerosene and gasoline lamps for use that evening.

Postmaster C. A. Ames, of Geneva, N. Y., who is also editor of the Geneva News, surprised his uncle, A. J. Wells, and family Thursday, when he made them a call. He is en route to Seattle, Wash.

Whitewater, 5; Milton, 0. The best game of the season for Milton college was played on the home grounds last Thursday when they held Whitewater to a score of 5-0.

Whitewater expected an easy victory, so had neglected practice. Milton understood soon after the team arrived in town that the score would be 5-0 in favor of the Normals.

Milton kicked off to White-water on their 10-yard line. White-water returned it 10 yards. By heavy line plays Whitewater carried the ball down the field. Milton contested their advance and forced White-water to punt. Milton soon

lost the ball and Whitewater again advanced the ball towards Milton's goal by heavy mass plays. On their 15-yard line Milton secured the ball on a fumble and advanced it rapidly, mainly through end plays by Bliss

and Place and by short gains through the line by Robinson. Time was called when Milton had the ball on White-water's two-yard line. The first half was ended. The second half was practically the same as the first, Whitewater making its gains

by heavy line plays, but was unable to gain around Milton's ends, while Milton made most of its gains round White-water's ends. During this half Whitewater forced the ball within a few yards of Milton's goal, and there were penalized 20 yards for an off side play. A successful drop kick for goal by Alkin from this point won the game for White-water.

E. H. Pullan went to Chicago Saturday to see "the boy."

Walter Atherton and wife have located at San Francisco, Cal., and he has entered the employ of the Great American Tea Co., of that city.

**THE TARIFF ISSUE.**  
That the democratic party will attempt to force the tariff issue in the next campaign is a recognized fact, and that the issue will fall flat is generally conceded. The tariff of government are now in the hands of a business administration, backed by a party in whom the people have confidence.

The natural running expenses of the government are about \$500,000,000 per year and no better plan has yet been discovered than the tariff to aid in meeting this liberal appropriation.

The country had some experience a few years ago, with free trade and in less than two years the surplus was exhausted and a debt of \$165,000,000 accumulated. These conditions were due to free trade aggravated by the fact that the administration was in the hands of a party which was unable to inspire public confidence, because of lack of ability.

The tariff is not only a revenue producer, but it is what the name implies protection in its broadest significance. Under its wise provisions American industries are fostered and developed, and American labor is richly rewarded. Employment of every kind has been constant, and wages have steadily advanced until they have passed high water mark.

The country is so prosperous that 95 per cent of all its products are consumed in the home market. Revenues from tariff receipts have fallen off and as a result the treasury surplus is diminishing. If for no other reason the congress will not feel warranted in making any move toward revision, and it is safe to say that nothing will be done at the coming session.

The Wall Street Journal sizes up the situation in a brief statement as follows:  
"The treasury deficit of nearly \$3,000,000 thus far during the month of November, with the probability that it will amount to \$5,000,000 by the first of December, possesses no little political significance. The treasury surplus during the last fiscal year amounted to \$54,000,000, but as receipts and expenditures are now running, it appear at the close of the current fiscal year there will be no surplus. The reduction in foreign imports and the reaction in trade will necessarily diminish the government receipts, while the congress as economical as it may, there can be but little reduction in expenditures.

In view of this fact, it is difficult to see how there can be any effective agitation for tariff reduction. However, unequal and unjust in some of its parts the present tariff may be, the fact of the immense financial requirements of the government, stands as an effective bar against any revision which means a reduction in taxation. This fact may be regarded from two different standpoints. Those who view our high tariff system as wrong in principle and in economics, will, of course, not be pleased with the postponement of tariff revision. On the other hand, business men who, whatever may be their individual views as to the tariff question, dread a tariff agitation, because it unsettles business, will be gratified that the condition of the government finances will not give encouragement to the advocates of a great reduction in the rate of duties upon imported merchandise. It would seem, therefore, as if the treasury deficit would lessen materially the importance of the tariff issues in the next Presidential election."

**CONFIDENCE BEING RESTORED**  
Wall Street is slowly recovering from the deluge of water that has been squeezed out of her stocks during the past few months, and confidence is being restored.

It is perfectly natural in times of depression, that good stocks and securities should share in shrinkage,

and it is not surprising that the New York market today is flooded with this class of paper at abnormal prices.

The general decline in all stocks has been from 25 to 40 per cent, but reaction is bound to occur at an early date, and good securities will swing back into line. Henry Clows, the New York banker, in writing on this situation says:

"One of the most favorable influences towards recovery will be the forthcoming improved financial situation; then good stocks will look very cheap at present prices. Before long funds sent to the interior will begin to return, and the increasing supplies of grain, cotton and securities will be almost certain to continue bringing gold from Europe. The present downward tendency of values in many of the merchandise markets has twofold effect of stimulating exports and checking imports, thus strengthening our trade balance and encouraging an influx of gold. By drawing funds from both east and west we are sure to build up our bank reserves, and so replenish our banking resources as to afford material relief in financial circles. As confidence revives, less scrutiny of collateral is necessary, credit is restored and the situation gradually becomes more normal and sound. These are perfectly natural corrective forces; and, though it would be folly to expect and extravagant upward movement, still it is now perfectly reasonable to look for a fair recovery from extreme depression.

What are some of the principle facts in the business world? Our October exports amounted to \$160,000,000 or \$16,000,000 more than in the same month a year ago. Our imports were \$82,000,000 a decrease of about \$5,000,000; while the excess of exports for the month was \$78,000,000, or over \$21,000,000 greater than a year ago. This is certainly a satisfactory showing, and should continue under present conditions. Gross earnings of 71 railroads from January 1 to October 31 aggregated \$634,000,000, an increase of \$66,000,000, or about 11 per cent, over last year. In view of good crops and trade activity in the west, it is practically certain there will be no shrinkage of consequence in earnings during the current fiscal year, although reaction in the steel, building and other trades must have some adverse influence upon transportation interests. Railroads, however, are in a position to effect such important economies, partly as a result of recent improvements, that no impairment of dividends is in prospect. One other indication of value is clearing house returns. For the month of October these aggregated 2,014 millions in the whole United States. This was a decrease of 18 per cent, compared with last year; but it is important to observe that this shrinkage was almost entirely due to a contraction of 30 per cent, in New York, the storm center of depression. Very moderate declines were reported in Philadelphia and Boston, while nearly all other important cities actually reported gains in clearings during the period when New York was struggling in despair. While reaction of the severest order was going on in the financial center of the country, the western states reported an increase of 12 per cent, in clearings, the Pacific states a growth of 6 per cent, and the southern states a growth of 8 per cent. Perhaps this was as it should be, for New York was the center of the disease and the pain was sure to be sharpest here. For this reason it is probable that reaction when it does come will be less severe in other parts of the country than in this city, where the crisis has spent its chief force.

Ex-governor Hoard is circulating a garbled statement of Senator Whitehead's recent address before the Twilight club. His authority is the report published in a democratic paper and is noted for misrepresentation. The address was a rehearsal of facts, and was composed largely of quotations from former state officials, including the ex-governor form Fort Atkinson. It was fair and impartial and highly complimented by an intelligent audience.

The question of teacher's wages is receiving a good deal of attention, and will be one of the principle topics for discussion at the annual meeting next month. The teachers will do well to remember that they are also dealing in a commodity in which the supply is far in excess of the demand. With seven normal schools grinding out teachers by the hundred every year, there is but little prospect for an increase in salary account.

There will be a three cornered contest in the next republican state convention and two sides of the triangle will represent harmony and a desire for peace. It is safe to say that this sentiment is endorsed by 90 per cent of the party throughout the state. The commonwealth is not going to the dogs and it is time to get together.

The American Federation of Labor is to be congratulated in electing Samuel Gompers to succeed himself as president of the organization. His majority of ten to one over his socialist competitor indicates that socialism has not gained much of a foot hold in the circles of organized labor.

The terms "Stalwart" and "Half-Breed" should be dropped from the list, and the one title republican applied to all men who train under the old banner of republicanism. It is time to stop throwing stones and get down to business. The national campaign is not far away and Wisconsin should be in position to present a solid front.

The man who paints fences, will have an opportunity to paint faces when the latest fad, started in New York, spreads over the country. Nothing short of bright red cheeks, a red mouth and chin, passes muster in the ranks of the 400, and the thicker the mixture the better.

The open shop is the only solution of the Chicago Street car strike. The time is not far distant when employers will demand and secure the right to conduct their own business.

Senator Hanna shows his good sense by refusing to listen to his fool friends who are trying to induce him to be a candidate for the presidency in 1904.

**PRESS COMMENT.**  
Chicago Record-Herald: One of the judges has decided that a girl has no breach of promise case against a man who proposes on Sunday and fails to carry out the agreement. After this it will be expected that the lights will be put out promptly at 12 o'clock Saturday night.

St. Louis Post-Dispatch: A northern Missouri paper asks: "Who is the happier, the man who possesses \$100,000, or the man who has seven daughters?" To which another exchange replies: "The man with surplus girls, of course. The man with money is not satisfied and wants more. The man with seven daughters is satisfied—he has enough."

Cleveland Plain Dealer: The statement that there is plenty of room at the top comes with considerable weight from Grover Cleveland. He has been there and may be supposed to know.

Washington Star: A Connecticut man has in thirty-two years saved over \$5,000 on a salary that never exceeded \$12 a month. He is of the opinion that the trusts can not hold a man down if he has the proper grit.

Chicago Chronicle: The average republican plurality in Nebraska this year was 21,463, which probably accounts for the persistency with which Mr. Bryan is pursuing the shadowy Bennett legacy.

Bright Benny  
"What a fine boy Benny is getting to be!" remarked Mr. Bloomer's mother-in-law, who was taking dinner with Bloomer.

"Yes, indeed," replied Bloomer, proudly. "He's a regular logician, too; he'll ask questions and deduct conclusions in a masterly manner. He's inherited his father's brain power," added Bloomer, modestly.

A few moments later the conversation turned upon Mormonism, and Benny, in search for knowledge, asked: "Papa, what is a Mormon?"

"A Mormon, Benny, is a man who marries more than one wife."

"Then you are a Mormon ain't you, papa?" asked Benny, anxious to display the deductive powers which his father had commended.

"I a Mormon, Benny? Why, how in the world did you get such an idea in your head as that?"

"Why, I heard you tell Mr. Spratt yesterday that you had married all your wife's family."

"Mrs. Bloomer," said that gentleman turning to his wife, "I think Benny had better be sent to bed now. He's been up quite late enough."

**Notes of the Railroads**  
The Pennsylvania has announced the regular fall increase in rates on export grain. The increase being customary in the close of lake navigation, and in this case being about 15 per cent.

President Mellen of the New York, New Haven and Hartford has issued an order transferring 800 car repair men from the New Haven to the new shops in Rentville, Miss. where it is intended to carry on practically all repair and new car work in the future.

M. C. Atwood, heretofore commercial agent of the Chicago, Burlington and Quincy at Aurora, Ill., has been appointed superintendent and general freight and passenger agent of the Fulton County Narrow Gauge railway, with headquarters at Lewistown, Ill., to succeed W. G. Sharrett, resigned.

The Southern Pacific is understood to have secured practical control of the Associated Oil company of California by the ownership of \$9,000,000 of the \$18,500,000 of outstanding stock, paying between 30 and 40 cents per share. The Associated Oil company was formed by merging forty different oil companies in the San Joaquin valley.

In Will county, thence west to Joliet and across the line from Blue Island through Calumet, Riverdale and Dolton, thence northeast through Thornton and West Hammond and from Thiney Park in an easterly direction through Homewood, Thornton and Lansing, in Cook county, and through other towns and villages and points in Cook and Will counties, as may be determined by said corporation.

The incorporation begins Nov. 14, 1903, and continues for fifty years. The capital stock is \$50,000 and the shares are \$100 each. The directors are William R. Owen, Henry Schanze, Benjamin M. Schaffner, J. R. Dicus, August W. Hiller, John F. Noel, Michael J. Concoran, W. S. McCaull and Frank E. White.

It is stated that President Earling of the Chicago, Milwaukee and St. Paul railroad is at present considering surveys for an extension of the east and west lines of the company from Yankton to Platte in a westerly direction to Orient, the southern end of the branch running south from Linton, N. D., and crossing the east and west line to the Missouri river at Exarts.

The construction of the line is asserted by officials of the company to be without special significance, as far as westward extensions into Montana are concerned. They say that the new construction will provide another feeder and direct connections with the east for a large territory that now has no railway facilities. The company has been considering extensive improvements in South Dakota and the present move is regarded simply as a forerunner of other extensions in the near future.

The Chicago and North-Western railroad has changed the routing of its Chicago-Black Hills passenger trains to pass through Omaha instead of going by way of the Missouri valley and Fremont. The new schedule will take effect next Sunday and will affect all the Black Hills passenger trains of that road.

In making the change the North-Western also relinquishes the use of the Webster street passenger station in Omaha, bringing all its trains to the Union station.

The operating department of the Nebraska division of the road, formerly known as the Fremont, Elkhorn and Missouri Valley railroad, will be removed from Omaha to Norfolk, where General Superintendent C. C. Hughes will have his headquarters.

CHAPTER IV—(Continued.)

"Poor Langley went down with a run; what with the altitude, and the fancy potatoes they seduced him with, he drank himself silly, and was shipped home like a sheep."

"Grant, they claim, never got any nearer the Big Horn than New York. That was a slander, I dare say. I didn't stop in New York; I never tempted the gods, and denied my weakness; I never professed to be girl-proof. I came straight on; thought I'd be safe when I'd got into the mountains."

"Comes a knock at the door one pitch-black night, and in she steps in her wet skirt like a lily in its sheath—a rose and lily in one. And I am gone, all at once. Like a snow-slide in March; a chinook is nothing to it; there's not enough left of me to wipe up the floor with."

"What shall I call it, mountain fever?"

"No; Langley said he had mountain fever; mine is not the same kind. Say I've struck it rich in the Black Dwarf? No; the governor will ask for assays, and want to organize a company; no company wanted here. No; I'll give it to 'em straight; say that things are rotten, rotten as the devil; but I'm not the man for a committee of one to investigate Manager Bingham's administration. Let them discover the reason for themselves; they wouldn't believe mine if I gave it. I have told them there's a miners' war toward, and the time is not good for investigations."

Again Darcie spoke aloud, using, I regret to say, a strong expression in regard to the letter which he held in his hand. He flung it on the table:

"Why in thunder didn't I send it the minute it was written? The information in it belongs to the company. Is it theirs—is it mine? It's on my conscience that it ought to go. The amount of systematic robbery, and lying, and corrupting of the company's agents, that's gone on here is almost too picturesque for belief. I wonder what they would have put up on me if I had come announced as the company's representative authorized to make a report? I should have succumbed a little more previously, that's all. I should have looked at her and tendered my resignation on the spot. A curious fatality that we're both here about the same time, and I never saw her till last night—yet I mean two nights ago. It is an age, yet it is the very present moment that I live in. Hang the letter! How can I send it after our little talk about her troubles? 'I'll trust you with all my troubles,' said she. She shall trust me! If her notorious old parent is to be investigated they must send another man. We're a rum crowd over there. A set of dotting grandmothers were wiser. It moves me to tears and laughter, the faith that is in us when faith is downright silliness, and the fantastic suspicions that feed upon us whenever suspicion's the wrong card."

Here a sound of footsteps crossing the dump from below was heard. Darcie crouched behind the car and reached for his rifle; he listened sharply till he heard Mike's whistle, then he sang out:

"Are ye there, Moriarty?"

Yes; Mike was there, and he had brought news, of which he disburdened himself together with his bacon, and flour, and ball of lard, and matches, and candles, and coffee. He had, as he said, made a pack-horse of himself.

"I dunno what country this is we're in now," he began in his richest bass, shaking out a reef in his "re-er" till the timbers rang. "It's not a free country, he gosh! Call a man a foul name, and baste the loife out av him—that's right! Thin anarclists rounded up wan o' the Caltrop boys in town last evenin', and settled wid him for a sheel and a thairor. The yards found him at daybreak, and thilphoned to the manager, and word come down he was to be sent up to the hospital on a han'-car. Tree av the Caltrop boys shored him up the thrack, and as they was bringin' the ear back the union nin set upon them, and mishandled them, and two got away and wan was left on the thrack wid the sinse knocked out av him. And the mine showed its guns to protect its mine whilst they was fetchin' him in, and the women began to screech that the mine was firin' on the town. And all the bigmouths was talkin', and I think the crisis has come. And that scriptur' they nailed upon the door outside, that manes business, Darcie dear. 'Tis a small private matter, but I think they'll be lookin' afther us pretty soon."

"Why do you say 'us,' Mike? Your name is not in it."

"I'm in whatever my pardner's in. But here's the queerest go, and, by the cross, I dunno f'what to make av it! I'm none so fond o' the neighborhood as

**WOODSOKET, R. I., Woman Tells How Father John's Medicine Cured Her.**

Mrs. Mary Inman of 308 Fairmount St., Woodsoket, R. I., says: "I used Father John's Medicine for asthma and a dreadful cough that I have had every winter for thirty-one years, and must say that of all the medicines I have used (and I believe that I have used every kind that is advertised and every one that any one would tell me of) I never found anything to help me as Father John's Medicine has. Since taking it I am able to do my work myself, as I have not done for years. For the past two winters I have never been without a bottle of it in the house, and just as soon as I or any one of the family have the least sign of a cold we take Father John's Medicine and find relief at once. I could write something good about it every day, and I recommend it to all my friends and neighbors. I hope this letter will enable others to be helped as I have been. (Signed) Mrs. Mary Inman." Father John's Medicine is for sale at the Hager Drug Co., corner of West Milwaukee and South River streets.

**Justice is a Fugitive.**

Wilkesbarre, Pa., Nov. 21.—Alderman John P. Donohue, who as a justice of the peace, has been punishing wife beaters, is himself a fugitive of justice on the charge of neglecting his wife and children.

**Thousands Have Kidney Trouble and Never Suspect it.**

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment of uric acid indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

**WHAT THE OLD DOCTOR SAID.**

"Doctor," said I, "you say appendicitis is much more common than it was thirty years ago."

"Indeed it is," replied the old doctor. "That we encountered this disease then, is true, but not with such appalling frequency. Appendicitis, these days, is almost as common as sore throat."

"To what, doctor, do you attribute this increase of appendicitis?"

"To hasty eating and to the use of foods which have a tendency to clog and freeze the intestines and deaden peristaltic action. The way to avoid appendicitis and the surgeon's knife is to shun unnatural foods that beget intestinal torpor and constipation."

People who eat Shredded Whole Wheat cereal do not have constipation and hence need not fear appendicitis. This perfectly natural food preserves the tone of the digestive tract and induces every excretory gland to subserve the body's interests. Have you tried this most delicious of all cereal foods?

"I have been eating your Shredded Wheat for over a year and it has completely cured me of constipation, with which I had been troubled for twenty years." Joseph Jessop, Hudson Hall, Coronado Beach, Cal.

**Important to Women!**

EVERY WOMAN knows that the secret of a successful and happy life lies in preserving the charms she already has, or in restoring those she has lost. She may have the sweetest disposition in the world, but unless nature has bestowed upon her a clear complexion, rounded features, a well-turned neck and beautiful bust she is seriously handicapped. Men are attracted and held by these charms, and she is a wise woman who will strive by every means to preserve or restore these blessings.

**DR. CHARLES FLESH FOOD**

should be used by every Woman who has the least desire to be attractive. It is the only preparation that will round out hollowed, thin cheeks or scrawny neck with FIRM, HEALTHY FLESH and REMOVE WRINKLES from the face and hands, no matter how deep the furrow.

**FOR DEVELOPING THE IMMATURE BUST**

or to make the breast firm, large and beautiful, nothing can equal it. To prevent the breasts from shrinking mothers should always use Dr. Charles Flesh Food after weaning baby. It will also restore a bosom to its natural contour and beauty lost through this cause.
